

# EDUCATION PROJECTS

ENERGY AIR, INC.

Nobody Works Harder.

From fast-track construction projects during summer shutdowns to strict owner requirements, we have experience overcoming any challenge when it comes to the HVAC installation for educational facilities. Our experience includes K-12, private, theological, technical and higher education facilities. From the first thermal storage system for Orange County Public Schools to a two-mile chilled water loop addition for the nation's second largest university, our manpower is skilled and trained for any system type and size.

*"Thank you to Energy Air's team for providing exceptional service from start to finish on the three recent school projects. Each was exceptionally difficult in regards to working during school hours and the summer break window. All three projects were on schedule and heavily coordinated."* ~Kevin M. Spiess, Project Manager, WALBRIDGE

**Employee-owned** and operated  
**Superior service** since 1976  
**\$90 million** bonding capacity  
**Trained field team**  
**Zero-accident** approach  
**Self-perform** entire HVAC scope  
**In-house CAD/BIM Team**  
**In-house fabrication**

## RECENT EDUCATIONAL PROJECTS

Cypress Creek High School • E.L. Bing Elementary School • Washington Shores Elementary • Eccleston Elementary • UCF Classroom II ROTC • Valencia College Osceola Campus Building 4 • Lake Erie College of Osteopathic Medicine Dental School • Thacker Elementary Phase II • Berkeley Prep Field House • Barry University Law School Phase 2 • USF Harbor Hall Renovation • Celebration K-8 Phase 3 • UCF Chemistry Building 5 • Ruskin Elementary Renovation Bldg 11 • Edgewater High School • Sunrise Elementary • Crystal River High School • Sutherland Elementary • Pine Ridge Elementary • Buddy Taylor Middle • Azalea Elementary • South Ocala Middle • Ft.
